

Choosing the Right Flea and Tick Medication for Your Dog

Is your dog at least 8 weeks of age?

YES
Is your dog pregnant or nursing?

NO
At this time the safest option is to use a flea comb and Dawn dish detergent to kill the fleas.

YES
We recommend Bravecto or Frontline Spray.

NO
Do you prefer a contact kill (repellency) or bite to kill?

CONTACT KILL (repellency)
Do you prefer topicals or collars?

BITE TO KILL
Is your dog at least 6 months of age?

COLLARS
We recommend Seresto, a flea collar that kills and repels fleas and ticks for 8 months.

TOPICALS
We recommend Vectra 3D, a topical flea and tick medications that kills for 1 month.

YES
We recommend Bravecto 3 month, a flea and tick medication that kills for 12 weeks.

NO
We recommend Bravecto 1 month which will kill fleas and ticks, when they bite, for 1 month.
